Work Experience

GlobalLogic
Associate Analyst *April 2026 - July2026*

- Consistently met productivity and turnaround-time targets on structured annotation tasks while working under time pressure in a fast-paced, deadline-driven environment.
- Reviewed and annotated data against defined quality guidelines, performing quality checks to maintain accuracy across high-volume structured datasets.
- Worked on AI/ML evaluation workflows involving natural-language instructions and robotic/AI model outputs, applying structured, data-led analysis to assess output quality.
- Collaborated with cross-functional team members and followed project-specific processes to meet delivery targets in a team-based, process-driven setting.

Projects

Sales Data Analysis & ETL Pipeline *Python | Pandas | NumPy | SQL | Matplotlib | ETL*
Built a Python-based ETL pipeline to extract, clean, and transform large volumes of raw sales data from CSV files, handling missing values, duplicates, and inconsistent formats.
Used Python and SQL to analyze sales trends, customer activity, product performance, and revenue patterns, translating large datasets into clear, actionable business insights.

AI Resume Analyser & Interview Preparation *MERN Stack | AI | React.js | Node.js | Express.js | MongoDB*
Built a full-stack web application applying an AI-first approach to solve a real user problem — analyzing resumes and generating AI-assisted interview preparation.
Github: https://github.com/HarshaSain/Advanced-genAI-mern-stack-project

ShopNest – E-Commerce Application *MERN Stack | React.js | Node.js | Razorpay | Express.js | MongoDB*
Developed a full-stack e-commerce application with responsive React.js UI and Node.js/Express backend APIs, implementing authentication, routing, and payment integration.
Github: https://github.com/HarshaSain/MERN-E-Commerce-App

Technical Skills

Data Analysis & SQL SQL, Python, Pandas, NumPy, Matplotlib, Data Cleaning, Data Transformation, ETL Concepts
AI & Problem Solving LLMs, Gen AI, Prompt Engineering, ML Basics
Database MongoDB, Mongoose, SQL, Database Design
Programming Languages Python, JavaScript, C++
Tools & Platforms Git, GitHub, Postman, VS Code, CI/CD Pipelines, Deployment Basics
Frontend React.js, HTML5, CSS3, Tailwind CSS, React Router
Backend Node.js, Express.js, REST APIs, JWT, bcrypt
Soft Skills Problem Solving, Communication, Team Collaboration, Adaptability, Time Management

Education

Chandigarh University *Mohali, India*
B.E. – Computer Science and Engineering- 7.2/10 *2021 - 2025*
Senior Secondary (Class XII)- 74%
Secondary (Class X)- 85%
